

ABOUT THE SEEKER

Enel is a multinational **energy company** and one of the world's leading integrated electricity and gas operators. Enel works in **34 countries across 5 continents**, generating energy with a net installed capacity of **more than 86 GW**, selling gas and distributing electricity across a network spanning approximately 2.2 million km.

With almost 71 million end users around the world, Enel has the biggest customer base among its European competitors, and it is one of Europe's leading energy companies by installed capacity and reported EBITDA. The Enel Group is made up of nearly **70,000 people from around the world** whose brilliant work is based on our values of **Responsibility, Innovation, Trust** and **Proactivity**.

Enel is dedicated to creating innovative solutions that meet society's changing needs. Through its openinnovability.com crowdsourcing platform, the company connects people and ideas from across the world, encouraging anyone to propose sustainable innovation projects and solutions that help develop local communities.

Enel is also committed to helping to achieve four of the 17 UN Sustainable Development Goals (SDGs):

7 - Access to affordable and clean energy

4 - Support for quality education

8 - Contributing to socio-economic development in the communities in which Enel operates

13 - The fight against climate change

Enel Produzione S.p.A – Innovation of Global Thermal Generation is part of Enel Group. Innovation, within the Global Thermal Generation Business lines has the following responsibilities:

- To define power generation technologies of interest as well as innovation project portfolio;

- to manage Innovation projects aimed at improving operational performances of existing power plants

Innovation develops activities and projects aiming at developing advanced technological solutions for increasing power plants environmental and technical performances, flexibility and reliability and at identifying advanced integrated technological systems for power plants monitoring/diagnostic and safety management.
