

# Be a part of the solution with [openinnovability.com](https://openinnovability.com)

Join [openinnovability.com](https://openinnovability.com), our crowdsourcing platform where you can solve our challenges and have the opportunity to win a monetary reward or collaborate with Enel.

**Innovation + Sustainability**

**OPEN INNOVABILITY**

We believe that open innovation and sustainability are key drivers in solving world problems.

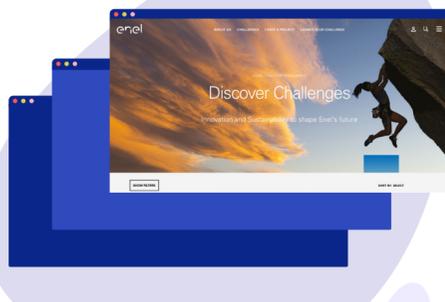

We created Enel Open Innovability to connect business challenges with a global community of talented solvers from all over the world in order to seek the best innovative solutions.

## How do I get started?

**1** Create your account at: [openinnovability.com](https://openinnovability.com)

**2** Go to the **Challenges** page to review open challenges

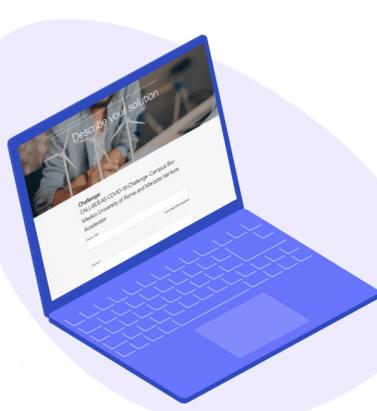

**3** Select the open challenge you wish to apply to

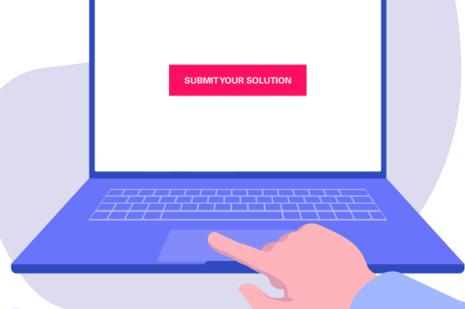

**4** Read the **Challenge** description and regulations

**5** Create **your solution** by completing the form

**6** **Submit** your solution

\* If you don't see any relevant challenges, select the *I Have a Project* page to **submit your own innovative project**

## What happens next?

Your proposal will be evaluated by a technical committee

Once the evaluations are complete, you will receive feedback

If your proposal is selected as a winner, an Open Innovability representative will contact you to go over the next steps

As a solver with a winning solution, you may receive a financial reward and/or the possibility to collaborate with Enel

## Are you ready to join us?

Register for free to stay up to date with the latest challenges and for a chance to win a monetary reward and/or collaboration opportunities.
