Brazil **Innovation** Challenge:  
New way of working

# The Challenges

How to continue the service of Enel stores by distance?

How to measure the energy consumptions and bills delivery in quarantine?

How can we ensure that contractors send us consolidated information about the protective measures they are taking with COVID-19 at work?

What technologies can we develop / contract to maintain productivity in the works, reducing the risks of contagion?

How can we inspect the activities carried out versus what was hired and paid without involving the physical presence of several professionals and partners, avoiding the risk of contamination?
